## **ENCANA SIGNS DEFINITIVE AGREEMENT WITH KINDER MORGAN AND SEMPRA ENERGY FOR CAPACITY ON ROCKIES EXPRESS**

**KMP/Sempra Energy also execute Purchase and Sale Agreement for Entrega Pipeline**

HOUSTON and SAN DIEGO, Nov. 15, 2005 – Kinder Morgan Energy Partners, L.P. (NYSE: KMP) and Sempra Pipelines & Storage, a unit of Sempra Energy (NYSE: SRE), today announced that EnCana Marketing (USA), a subsidiary of EnCana Corporation (TSX, NYSE: ECA), has signed a binding precedent agreement for 500 million cubic feet per day (MMcf/d) of natural gas capacity on the proposed Rockies Express Pipeline. The agreement was signed in conjunction with an open season currently under way on the Rockies Express project.

The approximately 1,350-mile, 42-inch diameter, 2 billion cubic feet per day (Bcf/d) Rockies Express Pipeline will be the largest pipeline built in the United States in more than 20 years. The planned route of the pipeline originates at the Cheyenne Hub in Weld County, Colo., and extends to the Clarington Hub in eastern Ohio.

“The commitment from EnCana, one of North America’s largest natural gas producers, demonstrates the necessity and viability of the Rockies Express Pipeline project, which will provide a solution for delivering long-life, domestically produced, natural gas to the Midwest and Northeast, thus maximizing the value of growing Rockies production,” said KMP Chairman and CEO Richard D. Kinder. “We are confident that EnCana’s support, along with previously announced conditional commitments for another 400 MMcf/d from the Wyoming Natural Gas Pipeline Authority and an affiliate of Sempra Pipelines & Storage, will help drive the Rockies

(more)

Express project forward and result in additional firm capacity commitments during the open season.” Depending on regulatory approvals and additional shipper commitments, the Rockies Express Pipeline is anticipated to begin service in late 2007.

Additionally, the Kinder Morgan-Sempra Pipelines & Storage project group today announced it has entered into a purchase and sale agreement with EnCana for its KMP-operated subsidiary, Entrega Gas Pipeline Inc. Entrega is in the process of constructing the first segment of the 330-mile project, which extends from the Meeker Hub in Rio Blanco County, Colo., to the Wamsutter Hub in Sweetwater County, Wyo. Under the terms of the purchase and sale agreement, anticipated to close in the first quarter of 2006, the Kinder Morgan-Sempra Pipelines & Storage team will construct the second segment of the project, which extends from the Wamsutter Hub to the Cheyenne Hub, where it will ultimately connect with Rockies Express. It is anticipated that the entire Entrega system from the Wamsutter Hub to the Cheyenne Hub will be placed into service by the end of 2006. A separate binding open season is now under way seeking shipper support for an extension of Entrega from the Wamsutter Hub to the Opal Hub in Lincoln County, Wyo., that will make up to 1 Bcf/d of additional capacity available on Entrega. Shipper support is also being solicited for a proposed expansion of the currently certificated Entrega facilities. The expected in-service date of the extension or expansion is late 2007; however, interim service could be available prior to that date.

Kinder Morgan Energy Partners, L.P. is one of the largest publicly traded pipeline limited partnerships in America. KMP owns or operates more than 25,000 miles of pipelines and approximately 145 terminals. Its pipelines transport more than 2 million barrels per day of gasoline and other petroleum products and up to 8.4 billion cubic feet per day of natural gas. Its terminals handle over 80 million tons of coal and other dry-bulk materials annually and have a liquids storage capacity of approximately 65 million barrels for petroleum products and chemicals. KMP is also the leading provider of CO<sub>2</sub> for enhanced oil recovery projects in the United States.

The general partner of KMP is owned by Kinder Morgan, Inc. (NYSE: KMI), one of the largest energy transportation and storage companies in America. Combined, the two companies have an enterprise value of more than \$30 billion.
