KINDER MORGAN ENERGY PARTNERS AND SEMPRA PIPELINES & STORAGE BEGIN OPEN SEASONS FOR ROCKIES EXPRESS PIPELINE PROJECTS

HOUSTON, Nov. 9, 2005 – Kinder Morgan Energy Partners, L.P. (NYSE: KMP) and Sempra Pipelines & Storage, a unit of Sempra Energy (NYSE: SRE) today announced the start of two separate binding open seasons to solicit shipper support for the proposed Rockies Express natural gas pipeline, to obtain commitments for an extension of a pipeline being built by Entrega Gas Pipeline Inc., a subsidiary of EnCana Corporation (TSX, NYSE: ECA), and for a potential expansion of Entrega's currently certificated facilities. Entrega is operated by KMP. Approximately 2 billion cubic feet per day (Bcf/d) of capacity is anticipated to be made available through the Rockies Express project, which KMP is developing in conjunction with Sempra Pipelines & Storage. Up to 1 Bcf/d of capacity is expected to be made available through the Entrega open season. The open seasons for both projects began today at 8 a.m. CST and continue until 5 p.m. CST Dec. 19.

The approximately 1,350-mile, 42-inch diameter Rockies Express Pipeline will be the largest built in the United States in more than 20 years, and will deliver natural gas from producing areas in the Rocky Mountain region to the upper Midwest and eastern United States. The planned route of the pipeline originates at the Cheyenne Hub in Weld County, Colo., and extends to the Clarington Hub in eastern Ohio. Pending shipper commitments and regulatory approvals, the first segment of the proposed Rockies Express Pipeline is projected to be in service by late 2007. The second and third segments of the pipeline are expected to begin service in 2008 and 2009, respectively.

(more)

The binding Entrega open season is seeking commitments for capacity that will be available by extending the 330-mile pipeline already under construction from the Meeker Hub in Rio Blanco County, Colo., to the Wamsutter Hub in Sweetwater County, Wyo., and which will ultimately reach the Cheyenne Hub in Weld County, Colo. The proposed extension would run from Wamsutter west to the Opal Hub in Lincoln County, Wyo. It is anticipated that the Kinder Morgan-Sempra project group will purchase Entrega Gas Pipeline which will become a part of the integrated Rockies Express Pipeline. The open season will also solicit binding commitments for expansion of the currently certificated Entrega facilities, which will be accomplished through turn back of capacity or compression expansion of the system. The expected in-service date of the Entrega extension or expansion is late 2007; however, Entrega envisions that interim service may be available prior to that date and intends to negotiate mutually acceptable terms with interested shippers.

Information related to these open seasons can be obtained by contacting Jeff Rawls at Kinder Morgan (303) 914-4903 or Ryan O’Neal at Sempra Pipelines & Storage (619) 696-4585. Additional details, including a map and detailed open season procedures related to the projects can be obtained from the Rockies Express web page at www.kindermorgan.com.

Kinder Morgan Energy Partners, L.P. is one of the largest publicly traded pipeline limited partnerships in America. KMP owns or operates more than 25,000 miles of pipelines and approximately 145 terminals. Its pipelines transport more than 2 million barrels per day of gasoline and other petroleum products and up to 8.4 billion cubic feet per day of natural gas. Its terminals handle over 80 million tons of coal and other dry-bulk materials annually and have a liquids storage capacity of approximately 65 million barrels for petroleum products and chemicals. KMP is also the leading provider of CO₂ for enhanced oil recovery projects in the United States.

The general partner of KMP is owned by Kinder Morgan, Inc. (NYSE: KMI), one of the largest energy transportation and storage companies in America. Combined, the two companies have an enterprise value of approximately \$30 billion.

Sempra Pipelines & Storage acquires, builds and operates natural gas pipelines and storage facilities in Mexico and the United States. Sempra Energy, based in San Diego, is a Fortune 500
