

REX-WEST INTERIM FIRM TRANSPORTATION SERVICE

Based on current construction and commissioning progress, Rockies Express currently anticipates that partial interim firm transportation service may be made available to its firm shippers on or about December 15, 2007. Rockies Express currently contemplates that such service will be provided from various receipt points at the Meeker, Wamsutter, and Cheyenne hubs to the KMIGT, Northern Natural, NGPL and ANR delivery points in Franklin County, Nebraska, Gage County, Nebraska, Jefferson County, Nebraska, and Brown County, Kansas, respectively. Rockies Express will provide additional updates regarding the anticipated in service date of these receipt and delivery points, as well as any additional receipt points and delivery points, including the Opal, Utah receipt point on the Overthrust Pipeline, as construction completion data is obtained.
