

REX-WEST FULL SERVICE UPDATE
(May 16, 2008)

Rockies Express has received all necessary regulatory approvals to place the remaining portion of REX West into service. Rockies Express is in the process of packing the line and expects to complete the line pack operations Monday, May 19th to enable the commencement of REX West Full Service to the PEPL interconnect in Audrain County, MO on Tuesday, May 20th.

Assuming line pack operations go as scheduled and final gas quality specifications are met for deliveries to the PEPL delivery point, REX will begin accepting nominations on May 19 for Full Service for deliveries to PEPL effective for gas day May 20, 2008. The increase in demand charges for REX West Full Service would also be effective on May 20, 2008.

Updates will be provided as new information comes available including potential postings over weekend. If the dates referenced above hold, they will be affirmed no later than early morning May 19 prior to trading for May 20.

Primary Point Changes

In accordance with the provisions of its FERC Gas Tariff, Rockies Express Pipeline will accept written requests for changes in primary receipt and delivery points and point capacity beginning on the first day of REX West Full Service. Information concerning active points and available point capacities can be located on the Rockies Express interactive website at <http://pipeline.kindermorgan.com/infoposting/point.aspx> (Verify the Transportation Service Provider is Rockies Express and click retrieve)

For a point change request to be considered valid, the request must comply with all applicable tariff requirements and must include the following information:

- Service Agreement Number
- Current Receipt /Delivery Point Combination
- Requested Receipt/Delivery Point Combination
- Requested Capacity
- Requested Reservation Rate at New Points
- Requested Effective Date

Please contact your Account Director if you have any additional questions.
