**SPECIFIC RULES AND REGULATIONS
APPLICABLE ON TRANSPORTATION OF BUTANE**

ITEM 4 SPECIFICATIONS AS TO QUALITY

The Carrier reserves the right to reject any and all shipments of butane not conforming to the following quality requirements.

"Butane" shall be in liquid state containing at least 95.0 liquid volume percent butane and shall at all times comply with GPA specification 2140-77 (and reissues thereof) and the following additional requirements:

- (i) it shall be commercially free from sand, dust, gums and gum forming substances, crude oil, catalyst poisons, impurities and other objectionable substances which may be injurious to the system or which may interfere with its transmission through the system;
- (ii) it shall not contain more than 3.0 liquid volume percent of propane;
- (iii) it shall not contain more than 3.0 liquid volume percent of pentane and heavier hydrocarbons.
