

COCHIN PIPE LINES LTD.

LOCAL TARIFF APPLYING ON PROPANE

FROM

A POINT IN THE PROVINCE OF SASKATCHEWAN

TO

POINTS IN THE PROVINCES OF SASKATCHEWAN AND ONTARIO

The rates named in this tariff are for the transportation of Propane by pipeline subject to the General Rules and Regulations published in Cochin Pipe Lines Ltd.'s tariff N.E.B. No. 6, Supplement No. 3, supplements thereto and reissues thereof, subject to the specific Rules and Regulations published herein (refer to page 2).

The rates listed in this tariff are applicable on the Canadian movement only of Propane tendered at receiving points in Canada, for delivery by Dome Pipeline Corporation to delivery points in the United States or redelivery to Cochin at the International Boundary near Windsor, Ontario. The movement in the United States is subject to tariffs published by Dome Pipeline Corporation which are filed with the Federal Energy Regulatory Commission in the United States.

**SPECIFIC RULES AND REGULATIONS
APPLICABLE ON TRANSPORTATION OF PROPANE**

ITEM 4 SPECIFICATIONS AS TO QUALITY:

The carrier reserves the right to reject any and all shipments of Propane not conforming to the definition of and specifications for Propane HD-5, as contained in "N.G.P.A. Liquefied Petroleum Gas Specifications and Test Methods" (N.G.P.A. Publication 2140 as revised and supplemented from time to time) and as determined by the test methods in said publication with the further proviso that the water content of the Propane must not be greater than 10 p.p.m. by weight.

ITEM 11 EVIDENCE OF RECEIPTS AND DELIVERIES:

Propane deliveries from the propane terminals will be evidence by "Bills of Lading" automatically printed on site including conversion to net volumes.

ITEM 20 ODORIZATION:

The Carrier will provide, as part of operating costs at each Propane delivery terminal, an odorant for odorizing propane, at the rate of 1.5 pounds for each 10,000 gallons (U.S.) propane. There will be no rebates for non-odorized propane. Non-odorized propane shall be provided by the Carrier only upon prior completion of the Carrier's release form by the shipper.

ITEM 21 DEMURRAGE:

In order to provide space for delivery of succeeding shipments into Carrier's facilities and otherwise to prevent or relieve congestion at Carrier's terminals, Carrier shall give notice to Shippers or Consignees to remove product from Carrier's facilities. Product specified in the notice shall be determined on a first-in, first-out basis. Product which is not removed at the close of a five (5) day period, beginning the day after such notice is sent by Carrier, shall be subject to a demurrage charge of one cent (1c) per barrel per day until removed. Demurrage charges shall be payable upon presentation of bill by Carrier.

ITEM 22 MINIMUM LOADS:

At destinations where Carrier has tank truck loading facilities, Carrier will, upon Shipper's order, load propane into tank trucks of five thousand (5,000) gallons (U.S.) or greater water capacity.

ITEM 23 SCHEDULING OF RECEIPTS AND DELIVERIES:

When shippers request receipt by the Carrier and subsequent delivery from the Carrier's propane terminals of volumes of product greater than can be immediately delivered, Carrier shall schedule such receipts and deliveries among all shippers on an equitable basis. Carrier shall not be liable for any cost incurred for any delay in receipt or delivery resulting from such scheduling.
