**Re: Advice Letter No. 12a of Calnev Pipe Line, L.L.C.**

Dear Mr. Royer:

Calnev Pipe Line, L.L.C. (“Calnev”) hereby submits six copies of the following proposed tariff schedule that govern the transportation of petroleum products by pipeline:

- Supplement No. 1 to Cal PUC No. 12 – This tariff is identical to Cal PUC 12 except for the addition of route maps and a minor wording change reflecting the new ownership of Santa Fe by BNSF at the appropriate destination.

We are also enclosing herewith one additional copy of this transmittal, including attachments, and respectfully request that they be stamped at the time of filing with the Commission’s file stamp and returned in the enclosed envelope for our records.

We are asking for the acceptance of this filing on a short notice so that the effective date of July 1, 2002, can coincide with the recent Calnev filings which will become effective on that date.

This proposed tariff does not change the rates in the current local tariffs.

Calnev is making this filing at the request of the Energy Division to include with the Calnev tariff a routing map for the pipeline system.

Anyone may protest this advice letter to the California Public Utilities Commission. The protest must set forth the specific grounds on which it is based, including such items as financial and service impact.
