**Re: Kinder Morgan Pipeline Products Specification Manual  
Revision 56**

Dear Customer:

Please note the following changes to the Pipeline Products Specification Manual since its previous edition of November 9, 2009. All of the changes effect the Oregon Line only and only those pages changed bear this revision date.

- Dormant product code "L6" has been reassigned as sub-octane premium in sections 1.1 and 6.2.
- Product codes "L7", "L8" and "L9" have been established as sub-octane premium in sections 1.1 and 6.2
- Cycle By Cycle requirements for the Oregon Line have been updated in section 2.3.
- Adjusted blending recipes in section 4.3 page 6 for Eugene terminal will become effective on a date to be determined and presumed to be mid-December.

For your convenience, the Product Specification Manual is published in PDF format to facilitate downloading and printing.

If you have questions regarding this manual or any other fuel specification issue, feel free to call me at (714) 560-4662. Written correspondence may be directed to my e-mail address [Kinzigr@Kindermorgan.com](mailto:Kinzigr@Kindermorgan.com).

Sincerely,

A handwritten signature in blue ink that reads "Russell G. Kinzig".
