

Environmental, Health and Safety Policy

Kinder Morgan's Products Pipelines in accordance with our Products Pipelines' Operations Management System is committed to conducting its business in a safe and environmentally responsible manner.

In order to meet this commitment, the Company, its employees, contractors and joint venture partners will:

- Comply with all applicable laws, company policies and industry codes of practice and require the same of our contractors
- Maintain the necessary programs and systems which are effectively implemented and appropriately monitored to ensure the desired outcomes are achieved.
- Establish, monitor and communicate company goals to support continual improvement.
- Ensure adequate resources are available.
- Actively identify and manage risks to prevent or reduce possible adverse consequences from our operations
- Be prepared for emergencies and coordinate our response plans with emergency response organizations in the communities where we operate
- Educate employees to be aware of and meet their responsibility for protection of health, safety and the environment
- Integrate health, safety and environmental protection measures and objectives into all aspects of our business
- Communicate openly and regularly with stakeholders to establish standards for health, safety and the environment and respond promptly to their concerns
- Work with industry associations, governments and other stakeholders to establish standards for health, safety and the environment appropriate to our business
- Regularly monitor and report our health, safety and environmental performance and set targets for continuous improvement.
- Report hazards, potential hazards, incidents and near-misses. Employees and contractors that report these items in good faith will be granted immunity from disciplinary action. If concerns of disciplinary actions are still present then these items may be reported via our Ethics Hotline (866) 293-2402. Good faith means that the individual providing the information believes that it is true and complete. It does not mean that the individual's understanding of the facts must be correct.
- Employees, supervisors, or managers who knowingly engage in or condone health or safety violations are subject to disciplinary action including suspension or termination.
