

Oil Pipeline Filing

SFPP, L.P.

May 22, 2025

Ms. Debbie-Anne Reese, Secretary
Federal Energy Regulatory Commission
888 First Street NE
Washington DC 20426

Dear Secretary Reese:

In accordance with the requirements of the Interstate Commerce Act (ICA) and the Rules and Regulations of the Federal Energy Regulatory Commission (FERC), SFPP, L.P. (SFPP) submits for filing the following tariff, effective July 1, 2025:

- FERC Tariff No. 194.26.0, Rules, and Regulations (cancels FERC No. 194.25.0),
- FERC Tariff No. 202.10.0 Local Committed Rates Tariff covering interstate transportation from El Paso, Texas, to Tucson, Arizona

SFPP offered potential shippers with the opportunity to make commitments on the expansion of capacity between El Paso, Texas and Tucson, Arizona (“2024 Expansion Capacity”) during an open season that it held from June 10, 2024, through August 9, 2024 (“2024 Open Season”). Following the conclusion of the 2024 Open Season, SFPP filed a Petition for Declaratory Order (“PDO”) with the Commission on November 13, 2024, in Docket No. OR25-3-000 that requested approval of the proposed rate structure, terms of service, and prorationing methodology for service on the 2024 Expansion Capacity. FERC issued an order on Petition for Declaratory Order on February 14, 2025, which granted SFPP’s petition.

SFPP is filing FERC No. 202.10.0 in order to establish a new committed rate that will apply to the movement by any committed shippers on SFPP’s 2024 Expansion Capacity who executed a Transportation Services Agreement with SFPP during the 2024 Open Season (“Committed Rate”). The transportation rate that applies to uncommitted shippers who would like to make the movement from El Paso to Tucson is currently set forth in FERC No. 197.25.0. SFPP is also filing FERC No. 194.26.0 which reflects a revised version of its proration policy addressing how SFPP will allocate the 2024 Expansion Capacity during periods of prorationing. This proration policy is consistent with the proration policy included in SFPP’s PDO filing.

As required by 18 C.F.R. § 342.2(b) (Establishing Initial Rates), SFPP is filing with this tariff an affidavit that the new Committed Rate set forth in FERC No. 202.10.0 is agreed to by at least one non-affiliated person who intends to use the service in question.

I hereby certify that copies of this filing have been sent, on or before this date, by means of transmission agreed upon, to all subscribers on the SFPP subscriber list.

SFPP, L.P.
